### SBH V520

**INDUSTRY**

Food processing, gravy manufacturing for pre-packaged meals

**CHALLENGE**

The challenges included achieving a mix without lumps, reduction of processing times and adding general efficiency to the current process.

**SOLUTION**

Ampco supplied this food processor with a SBH520 high shear mixer. The mixing process was shifted to a single pass with a reduction in total processing time from 45 to 15 minutes! The customer is also using the SBH as a pump, further reducing equipment costs.
